# Program Objectives

## Master of Science in Criminal Justice Administration

Upon successful completion of this program, a student will be able to:

1. **Analyze** how criminal justice policy is formulated at the federal, state and local level within a political, economic and social context.
2. **Articulate** the roles and functions of the various components of the criminal justice system.
3. **Integrate** theory and practice in relation to public and private agency planning, accounting, budgeting and finance.
4. **Explain** the cultural context in which the criminal justice system operates.
5. **Specify** how multi-culturalism relates to the community, the workplace and the effectiveness of the criminal justice professional and job performance.
6. **Compare** and contrast the various theories of criminology.
7. **Apply** the basic principles of public and private agency management and administration, including resource management and allocation to criminal justice agencies.
8. **Demonstrate** leadership skills through effective written and oral communication.
9. **Use** current technology to access information, analyze and interpret data, and generate reports.
10. **Apply** organizational behavior theories and concepts in practical organizational settings within criminal justice.
